

Cale Fraitzl

kellswift.com | Halifax, NS | fraitzl.cale@gmail.com

I am a security researcher with a passion for OSINT (Open-Source Intelligence) and ethical hacking. While I have minimal formal experience in the field, I have spent countless hours honing my skills and expanding my knowledge. I have a natural curiosity for understanding how systems work and identifying potential vulnerabilities, and I am constantly seeking out new challenges to improve my abilities.

TECHNICAL SKILLS

Straight forward explanation of my areas of knowledge.

PROJECTS

Detailed info about my projects on my [website](https://kellswift.com).

- Personal Portfolio Website Using GitHub Pages
- Multi-VM System for OS Familiarization
- ESP36 CAM Module Wireless Security Camera
- Physical Penetration Testing Using Lockpicking Techniques
- IR Reflective Glasses

RELEVANT PROFESSIONAL EXPERIENCE

IT Support for Seniors

Volunteer | 2015 – Present

- Assisted seniors in my community with any IT-related problems they had; from how-to message to setting up a speaker system.
- Support was primarily towards seniors, but I assisted with anyone who asked for help.
- Developed skills in teaching complex IT concepts in a simpler way to suit my clients' abilities.

General Labourer & Handyman

Self-Employed | June 2017 – Sept 2022

- Installed and setup multiple Nest cameras.
- Installed Cat6 wiring through walls and to upper levels of a residential home. Switches were installed on both floors to facilitate multiple devices.
- Assisted client with installation and setup of office equipment
- Performed groundskeeping tasks including but not limited to, mowing, raking of leaves, weeding, brush cleanup, post-storm cleanup, shoveling snow.
- Experience with both power and hand tools.
- Ability to lift and carry over 50lbs.
